

**REMARKS**

The present resubmitted Amendment is in response to communications with Examiner Boykin. The Examiner explained that there were issues in printing the issued patent due to the quality of the documents illustrating the amendment to the specification identified in PAIR as filed in April 2005. Hence the amendment to the specification is being resubmitted herein. It is noted that the amendment to the claims that were submitted on the same date are not included herein since they are not representative of the finally allowed claims and since the claims were submitted in amendments subsequent to the April 2005 amendment.

No new matter has been introduced by this Amendment. The Amendment is merely a resubmitted copy of the prior amendment to the specification.

If there are any questions or issues with respect to this resubmitted amendment, please contact the undersigned at the numbers below.

If there are any additional charges with respect to this Amendment or otherwise, please charge them to Deposit Account No. 50-3621.

Respectfully submitted,

CANTOR COLBURN LLP
